HIGHLY IMPORTANT DISCOVERY.

Fousel's Pabulum Vitæ.

Has now gained its position before the public as *THE ONLY REMEDY* yet discovered for the speedy relief and permanent cure of

CONSUMPTION,

Coughs, Colds, Hoarseness, Bronchitis, and all other Pulmonary Complaints.

The discovery of an eminent French Physician after many years of study and observation, it continually meets with the most

ASTONISHING SUCCESS

in the treatment of the above complaints. Its unabated popularity, numerous certificates of remarkable cures, the recommendation of some of our most eminent physicians, and the analysis of Dr. A. A. Hayes, the State Assayer, all give unavoiding proofs of

THE UNRIVALLED VIRTUES

And Unqualified Superiority

of this preparation to any other remedy now extant, and are constantly contributing to give it a wider and more enviable reputation. From its volatile nature, it affords vapors freely, and consequently is DIRECT IN ITS ACTION UPON THE LUNGS AND AIR PASSAGES.

The discredit which has been thrown upon all preparations not prescribed by regular physicians, by reason of the recklessness with which worthless and injurious compounds have been imposed upon the public, will tend to deter many from availing themselves of the benefits of this preparation; the agent, however, assures the public in all sincerity, that this medicine is not only *perfectly safe, and free from all other deleterious ingredients*, but guarantees that it will effect all that he represents, not having heard of a single case where it has failed to give satisfaction.

It is warranted to cure

Consumption by using One to Six Bottles;
Bronchitis by using One to Three Bottles;
Coughs by using less than One Bottle;
Colds by using it Two to Six Days;
Bleeding of the Lungs by using less than One Bottle;
Hoarseness by using less than One Bottle;
Soreness of the Chest by using less than One Bottle;

Price $3 per bottle, accompanied by a Treatise. For sale by

P. J. LAFORME, Sole Agent,
No. 5 Milk Street, Boston, Mass.

And by all respectable Druggists and Apothecaries in the United States and British Provinces. mar25'57 dly

Ayer's Cherry Pectoral

Has long been manufactured by a practical chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, and consequently can be relied on as genuine, without adulteration. It supplies the surest remedy the world has ever known for the cure of all pulmonary complaints; for COUGHS, COLDS, HOARSENESS, ASTHMA, CROUP, WHOOPING COUGH, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of consumptive patients in advanced stages of the disease. As this makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log cabin of the American peasant to the palaces of European kings. Throughout this entire country, in every state and city, and indeed almost every hamlet it contains, CHERRY PECTORAL is known as the best of all remedies for diseases of the throat and lungs. In many foreign countries it is extensively used by the most intelligent physicians. If there is any dependence on what men of every station credit it has done for them; if we can trust our own senses when we see the dangerous affections of the lungs yield to it; if we can depend on the assurance of intelligent physicians, whose business is to know; in short, if there is any reliance upon anything, then is it irrefutably proven that this medicine does cure the class of diseases it is designed for, beyond any and all other remedies known to mankind. Nothing but the intrinsic virtues, and the unmistakable benefit rendered to thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies have been thrust upon the community, have failed, and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and remarkable to be forgotten.

THE CRYSTAL OIL LAMP,

For Burning the Crystal Oil,

Combining Economy and Safety!

PATENT RIGHTS

FOR STATES & COUNTIES FOR SALE!

This important invention for producing the *cheapest* light in the world, is now perfected and offered to the public. Numberless other attempts have been made to produce a cheap light, but were attended with such inherent objections as to destroy their utility and adoption. But the Crystal Oil Lamp, while it is the *Cheapest*, is both safe and agreeable in every position, making a *clear, white and brilliant flame*, entirely free from *smoke or odor*. There is no danger from explosion, but is *perfectly safe* under all circumstances. The oil can be used in any place without fear of soiling the most delicate garments. The lamps are *simply* arranged and perfectly controllable by the children and invalids, and so constructed that the light can be varied in a moment from that of one to eighteen or twenty ordinary lamps. While it is free from the disagreeable smell arising from the Kerosene, and the danger attending the use of burning fluid, it is found upon scientific comparison to produce

As much LIGHT for ONE CENT as Kerosene will for Three Cents, or Burning Fluid will for Six Cents.

Thus saving five-sixths of the entire amount now expended, or the price of the lamp in about a month. They are adapted to all situations, making the cheapest and most desirable light for every place—the largest halls or churches as well as private dwellings. The patent on this is for the different States and Counties throughout the Union, with the exclusive sale of the Crystal Oil, is now offered to the public, presenting a rare opportunity for merchants to secure for themselves the monopoly of a trade entirely free from opposition. Facilities are completed for the manufacture of the lamps in such quantities that they will be furnished to the purchasers of rights in any state, at such a cost as will yield an almost incredible profit. These rights will be disposed of liberally, and the lamps and oil delivered as soon as desired. As no lamps will be sold to any but purchasers of rights, all letters making the request will not be noticed. Communications addressed to the "Crystal Oil Lamp Co., No 6, Merchants Row, will be promptly attended to.

Senator Seward—His Kansas Speech.—Party Movements in the Future.

That William H Seward is the ablest American statesman of the present day is acknowledged even by many of his political opponents who fear the man while they hate his principles The slavery propagandists themselves while they justly view him as the uncompromising enemy of the peculiar institution, concede that his legislative abilities are of the highest order and his statesmanship far reaching and comprehensive And while his talents and abilities give him almost a commanding position even in a party opposed to him politically the native dignity and purity of his character secure the constant respect of all parties When Mr Seward speaks, the most marked attention is paid to every word which he utters, and gentlemen from the South in Congress are especially watchful of every word that falls from his lips, and generally sit upon anxious seats until he concludes His recent speech upon the Kansas question, though not one of the carefully prepared efforts which he usually makes is considered to be the greatest which has been delivered for comprehensiveness of view and for logical ability It is acknowledged to be a speech worthy of Webster or Clay in the best days of their statesmanship and oratory It occupied the undivided and anxious attention of all his political opponents, and the highest admiration of his friends

Mr Seward, as we have said, has become the most marked man of the age, and it is day by day more evident that a very large portion of the American people are looking to him as the candidate of Freedom for the President at a success on The Southern extremists fear his nomination, beyond that of any other man, and are ready to acknowledge, that although Mr Seward has for years been considered the worst enemy of the slave power, and would be most bitterly opposed, yet his chances for an election would be greater than those of any other northern man who could now be nominated They fear as well as hate him—for they know the far seeing shrewdness and political sagacity of the man, and if he should be the choice and should consent to run as the candidate of the great party of Freedom and of Free Labor, they would look upon that very fact as one of the most pregnant indications of the downfall of a savery in this country,

Speculations have recently been put forth as to a "reconstruction" of the opposition party—and fears have been felt and expressed, that such a reconstruction will probably be attempted as may embrace an abandonment of the distinctive name and principles of the Republican party We have no fear that the name of the Republican party will be abandoned in any national contest It is too significant of the end and aim of the party of freedom, And whatever apprehensions others may entertain as to a change of principles we have none, in view of what we believe to be the probable concentration of opinion upon Mr Seward as the next Presidential candidate. We have no disquietude as to the platform upon which the Republican party may fight the next campaign, if William H Seward, or any man of similar principles is to be the standard bearer Wherever he leads—or any man of his political views,—the Republican party may safely follow—and all the opponents of Buchananism may also follow. There is ample room for all on the broad platform of the Republican party—for the Republican party seeks only to establish the principles of Liberty in our government, as laid down by the Declaration of Independence, and acted upon by the fathers The edifice of Republicanism which has been reared during the past four years is ample enough to embrace all who would labor for the overthrow of a pro slavery administration and a pro-slavery party, and it would be folly to destroy that edifice in order to attempt the "reconstruction" of another but not a better one Parties are already "reconstructed"—and have been since 1854 Those who have been merely hanging between one and the other must soon make their choice—They can hardly expect that the Republican party,—embracing nineteen twentieths of the friends of Free Labor at the North, and which has thus far fought the battle of freedom almost unaided—should now yield its name and its organization to accommodate those who at first stood aloof from it, and even at enmity with it No The Republicans will receive with open arms and treat with the utmost generosity, all who desire to join their ranks and sustain their principles But they cannot be expected to give up their organization or to change their name No sincere anti Slavery man at the North can ask it, and there is ample room for the Southern friends of Emancipation to organize themselves within the Republican lines However it may be deemed expedient to contest local elections in some of the states the great Republican party of the nation will remain intact and prepared to triumph in 1860

New Publications.

A NEW SERIES OF AMERICAN BIOGRAPHIES FOR YOUTH By George Canning Hill Boston Hill & Libbey 1858

Two numbers of this interesting and valuable series have been issued—the Life of Capt John Smith, the Founder of Virginia and the Life of Gen Israel Putnam, the Revolutionary Hero No two men could be better selected to illustrate the highest grade of enterprise and patriotism for the respective periods of American history, than the men whose biographies are given in these volumes The character of Capt Smith commands the admiration of all, and especially challenges the respect and love of chivalrous youth, as the brave and self sacrificing pioneer, who was ever ready to risk his fortune and and his life for the protection and advancement of the infant colony with which he had cast his lot His romantic and perilous adventures with the Indians make his career one of absorbing interest to every American youth

Not less captivating is the story of Old Putnam's adventures Putnam was a true hero and the sketches of his life are truly vivid and graphic.

THE GOLD DISCOVERIES IN IOWA —Great stories are told of the recent discoveries of gold in several counties of Iowa, bordering upon the Des Moines river—the nearest diggings to Keokuk being about 80 miles There seems to be no doubt there is gold there—but not one in a hundred who rush to Iowa upon the strength of the discovery, can make mechanic wages in digging it. There will be plenty of magnificent stories told, however, to induce immigration and help the land speculators. THE ENGLISH BILL IN KANSAS —Advices from Kansas in regard to the English Bill have generally one tone—that of intense hostility to its provisions The Kansas correspondent of the Boston Journal, writing from Monrovia, Atchison County, under date of May 10, says —

"An informal meeting of the Free State men of Atchison county was held on Saturday at this point which is fifteen miles back from the Missouri river It was found upon consultation that the public sentiment was overwhelmingly against the Lecompton Constitution and ordinance It was generally characterized as an attempt to bribe the people, and a very shallow one at that.

The same correspondent, writing from Leavenworth city, the next day, May 11, adds,—

The opposition to the Lecompton Constitution here is fierce and general Gentlemen from Southern and Western Kansas, even as far out as Fort Riley, whom I have met, assure me that it is the same in their respective localities Unless gross frauds are perpetrated, it is safe to predict that the hateful instrument, which the administration prints speak of as "the will of the people," will not receive a thousand votes, all told, in the whole Territory"

The $1500 clerk who writes Washington letters for the Bangor Union over the signature of "Faust" and the initials of whose real name are *Dr. C A Jordan*, formerly a violent stump speaker and political drummer of the city,—pours forth another chullition of bile upon the occasion of their vote against the Oregon bill With a recklessness entirely characteristic, he makes an base statement (it *would* be slanderous if the writer were not known)—that "The Republican Senators" from Maine are opposed to the admission of free States into this Union such a ridiculous charge as this would only excite a simple compassion for the weakness and imbecility of the person who could make it, were it not for the evident malignity with which it is made and reiterated As it is, the writer is worthy only of contempt The reasons for the vote given on the Oregon bill by the Maine Senators were plainly given, and are of course the farthest from any objection to the admission of a *free* State Such are gladly welcomed, but that is no reason why they should be improperly admitted, and in a manner unjust to other members of the Union The following paragraph from Mr Trumbull's remarks will show some of the principal reasons which influenced the votes of several of the Republicans upon the Oregon bill—

The Territory of Oregon asks admission into the Union as a State by the presentation of a constitution formed without any authority derived from Congress, and we are not furnished with any official information whatever of the extent of her population It is admitted by every one, I believe that a State ought not to be admitted into the Union until it has sufficient population to entitle it to at least one member in the House of Representatives — That principle is so manifestly just that all assent to it. State equality requires it, for it is unjust that fifty thousand people in one locality should have a representative in the other branch of Congress founded upon population, while fifty thousand in another locality have no such representation Fifty thousand of the people of Illinois have as good a right to a representative as fifty thousand inhabitants of Oregon

* * * * *

The fact that we have voted to admit Kansas as a State, and I did so at the last Congress, is not to preclude me from voting against the admission of another State under different circumstances Congress has a discretion to admit States or not The Constitution provides that the Congress of the United States may admit new States into the Union. When a state of things arises endangering the peace of the country, when an army is stationed in one of your Territories to preserve the public peace at an expense of millions of money, when thousands of soldiers are quartered there, when, as I believe, a military despotism has been established in a Territory, am I to be told because under such circumstances I would not stickle for the full amount of population before I would relieve that people, that therefore when a Territory is peaceful, when none of these considerations exist, when there is no pressing necessity for action in order to relieve the country from civil war, and perhaps save the Union itself from destruction, I must vote to admit with the same amount of population? Sir, the circumstances are very different. I said at the last Congress that I would not vote to admit Kansas as a State but from the pressing urgency of the case I would have done almost anything in my power to relieve that people from the despotism under which they were laboring

NEW APPOINTMENTS AT WASHINGTON —The following named persons have been commissioned Thomas J Dunn of Mississippi, Consul General at Havana; Alexander Dorbos of Louisiana, Consul at Marseilles, Albert G Blakey of Missouri, Consul at Talcahuana; Augustus Cerbell of New York, Consul at Canada; Lewis K Foster of New York, Consul at Calcutta; Robert Walsh of New York, Consul at Bombay; [illegible] of New South Wales, Consul at Guayaquil.

THE NEWS FROM UTAH —The following items are among the latest news received — If reliable, it seems to settle the question

The Leavenworth Times, in an extra of May 14, says the following news was received the previous evening

"A special messenger arrived yesterday from Camp Scott, bringing the important news that Gov Cummings had entered Salt Lake City, without troops, and that his authority had been fully recognized by the Mormon officials He brings dates to April 10

Not only was no resistance offered, but none was contemplated Brigham Young was tame as a child The saints had no mission of vengeance from the Lord to deliver to the people Simple Governor Cummings entered the city of the temple, and the temple itself, and Mormonism bowed its head in submission

Of course the troops were in readiness to act, and thus the Danites knew full well

Gov Cummings entered Salt Lake city April by invitation Most of the Mormons—men, women and children—had emigrated south, or were preparing to do so Their destination is not given The majority very likely will scatter, and settle on the Pacific slope or if they cling together, will seek a home in Mexico,

This news is unofficial, but it is considered reliable at the fort

Private letters received here and at the fort say that the point of destination of the Mormons is Sonora in Mexico

There was a painful report that Gov Cummings was bitten, on the 25th of March, in the right arm, by a dog that was supposed to be mad The dog attacked several and was finally killed The Governor was quite fearful and distressed about the matter

DR. J H ROBINSON, the great story writer, as will be seen by an advertisement in another column is writing a story for the New York WEEKLY under the title of "NICK WHIFFLES *or the Trapper Guide*, which cannot fail to create an extraordinary demand for that already popular paper The field chosen by the author is one of the most interesting that could have been selected The whole History of the North West is one great Romance, which in the hands of a man like Dr Robinson cannot fail to attract the universal attention of the reading world In the particular line he has chosen, Dr Robinson has no rival in the world of letters, and we should judge from the fact that the proprietor of the WEEKLY has secured his exclusive services in addition to such writers as Francis S Smith, Mrs Mary C Vaughn, Helen Forest Graves, James A. Maitland, Augustine J H A Duganne, etc, that he means to make a bold push for the tallest kind of a circulation

We understand, says the Montgomery (Ala) Mail, that Mr Bryant Lee, *who is supposed to be insane*, living near Marion, in that State, took up and whipped to death two of his negroes a few days ago He has been arrested and held for trial

THE COST OF A MODERN BELLE —I saw her dancing in the hall Around her snowy brow we set $2000, such would have been the answer of any jeweller to the question "What are those diamonds? With the gentle undulation of her bosom there rose and fell exactly $160 The sum bore the guise of a brooch of gold and enamel Her fairy form was invested in ten half needles, represented by a slip of illumination, and this was overlaid by $300 more in two skirts of white lace Instefully down each side of the latter were five dollars, which so many bows of purpl ribbon had come to The lowlie margin of the $200 skirt were edged with eleven additional half eagles—the value of some eight yards of silver fringe, a quarter of a yard in depth Her taper waist, taking zone and clasp together, I calculated to be confined by at least $150. Her delicately rounded arms, the glove of spotless kid being added to the gold bracelet which encircled the little wrist, may be said to have been adorned with $110 75, and putting the silk and satin at the lowest figure, I should say she wore $3 60 on her feet. Thus, altogether was this thing of light, this creature of loveliness arrayed from top to toe, exclusively of little sundries, in $2829 25

MAN OVER NIAGARA FALLS —The Rochester Union states that a man from the Canada side went over the Falls of Niagara on the 19th inst He had been over to the American side in a small boat and was returning when he was swept into the rapids, having, it is thought, by those who saw him, depended upon his sail long after he should have taken it down and resorted to his oars to save himself The boat was actually in the rapids before the sail was lowered, and then it was too late — When the man was is not known on the American side Boat and man were lost sight of long before they reached the great fall.

Letters from Havana represent that the people are highly indignant at the searching of the estates by the marines of the British gunboat Styx feeling that the Spanish flag has been outraged and insulted The Captain-General was so enraged that he immediately dispatched directions that the officer in command of the port where the landing was made, who did not resist the British by force of arms, should be brought in chains to Havana, to be tried for his offense

NO FEAR.—When the brave Corporal Guitheness was asked, after the battle of Waterloo, if he was not afraid replied "Afraid! why, I was in all the battles of the Peninsular! but having it explained to him, that the question merely related to a fear of losing the day, he said "Na, na! I did na fear that, I was only afraid we should be all kill before we had time to win it!

The Washington Republic states that of twenty three Private Bills agreed to in the House on Friday last, twenty one were in favor of Southern parties Almost everything from the north was killed, the objection of a single member being sufficient for that purpose

A person returning from New York was asked if he did not think some of the new hotels were rather imposing edifices? He said, Yes, but to his mind a truly *imposing* spectacle was a mock auction

The Mount Carmel, (Ill.) Republican notes that eggs are selling in that place at three cents a dozen

HIS LAST AND BEST STORY

For sale by all News Dealers

IN THE UNITED STATES & BRITISH PROVINCES

This is a story descriptive of Wild and Startling Adventure and of the primitive modes of life, among the Indians and Trappers of the Great Northwestern Territory This grand and extensive portion of the American Continent has been hitherto almost as a "sealed book" to the civilized world In those regions a territory nearly as large as Europe has long been locked in the monopoly of the great Hudson's Bay Company, and its rival the Northwestern Co Private enterprise has not penetrated its solitudes and of those whose duties have called them there, and who have participated in the treasures of this unknown land none have hitherto been willing to expose its mysteries or have possessed the power of portraying the perilous and strange vicissitudes through which they have passed Here we find classes of men, distinct indigenous to the soil, or moulded by its peculiarities perfectly original in character, utterly unlike in manners and habits to any similar order in other lands The Indian, in all his natural wildness, the half breed a strange mixture of daring, simplicity and cunning, the Trapper, who spurns the restraints of civilization and recognizes no law but the fierce impulses of his own will the European Exile or Outcast, the Outlaw of Canada and the United States who seek in the trackless wilderness a refuge from the outraged laws of civilized life

Nor is this rude society decided the genial influences and humanizing effects of woman's presence Impelled by affection hundreds of devoted women have accompanied these adventurous outcasts to this wild retreat while the population the offspring of mixed races, contains thousands of half breed females, in whom the passions the graces and the virtues of the softer sex are blended with the artlessness of nature, and the wild freedom of a life that knows no conventionalities

In these reckless men the great rival Companies find willing agents and unscrupulous tools, once engaged in their service, but few ever return, or care to return to society Among those people are enacted deeds of rude chivalry as brilliant and daring as any recorded of the chivalric ages And among them also are committed tragedies and crimes of wild passion, that can find no parallel in history, or scarcely in fiction — Living absolutely without law, and without protection every man is perforce, a law unto himself and the rifle and the tomahawk are the only arbiters

Here is a glorious field for a novelist whose experience and talent fit him for the task of depicting its events Such a man is the author of "NICK WHIFFLES" and in his story we venture to say that he has surpassed every former effort For fidelity to nature, for graphic and dramatic force of style, and for keen delineation of character, there are few scenes in the language that can compare with "NICK WHIFFLES" — The author brings before the reader in life like act of the hardy Adventurers and the simple Natives of this magnificent region There meet the wrongs the misfortunes and the unsophisticated virtues of the life he depicts alternately a source of indignation and awaken our sympathy At one time we are rapt in admiration of the reckless courage and romantic daring so vividly painted by this skillful writer at another we are melted to tears by the exquisite pathos with which some of the noblest traits of human nature are brought before us, and again we are convulsed with laughter by humorous descriptions of incidents and original characters—the unique offspring of a free, lawless and untrammelled mode of existence a phase of human nature hitherto unknown for want of a historian

Those who have read the previous productions from the pen of Dr Robinson, do not require to be told that there is no man now living who can compete with him in a story of this character — He stands unrivalled in the classes of literature — As one of the leading contributors for the *Flag of our Union* and other leading publications of the day, for a number of years, he has acquired a popularity that places him in the front rank of American story writers

Those who desire to secure this great Story by Dr ROBINSON, complete should send in their orders at once to enable us to make arrangements to supply them. Wherever there is a News Agent order through him We only desire to send the WEEKLY by mail to out of the way places, where there is no News Dealer When sent by mail the terms are $2 a year, or two copies for $3 six month subscriptions $1 All orders by mail must be addressed to

TO THE DAILY WHIG AND COURIER.

CONGRESSIONAL.

WASHINGTON, 25th.

SENATE. The bill creating two additional districts in Washington, passed.

The joint resolution authorizing the President to sell public property in Philadelphia also passed.

Mr Seward of N Y then called up the Chicago harbor improvement bill, which was discussed during the morning hour.

Mr Toombs of Ga. held that the bill was unconstitutional.

Messrs Davis, Collamer and Benjamin argued that the government had the power to make improvements for the benefit of internal State commerce.

At 1 o'clock the fifteen million loan bill came up.

Mr Simmons of R. I. had the floor, with an amendment proposing a home valuation of imports, which he argued would diminish the customs frauds, and largely increase the revenue.

Mr Toombs took exception to his remarks, and said that they could not introduce such an amendment into the loan bill. He sustained Mr Hunter's point of order, but agreed with Mr Simmons in favor of a home valuation.—In the course of his remarks, Mr T said he had been ready at any time these ten years for a war with England, and if we got up a war now he wanted to be counted in! The government should have sunk the British ships, or sending them, brought their officers here and hanged them. While the British gun-boats are committing outrages in the Gulf, which is ours, and ought to be a "mare clausum," the finest ship in the American navy is where?—Towing a telegraph line between the two British possessions. Mr Toombs also spoke strongly for limiting the expenses of the government except in war to $50,000,000.

Considerable discussion followed on the point of order, Mr Hunter defending and Mr Seward disagreeing to it.

Mr Crittenden of Ky saw nothing to prevent the Senate from altering the method of collecting the tariff. Mr Simmons' amendment, he said, went no farther than the mode of collecting, and hence was not obnoxious to the objection made by the Senator from Va.; hence valuation was the only safe one. Some of the calculations by which it was attempted to support this bill were fallacious, being of such "stuff as dreams are made of." If the reports of the British insults were true and were not amply disclaimed by England, we ought, he said, to be ready for war, and carry it out to the utmost honorable limits. He believed that England would give an ample apology for these offensive aggressions of her cruisers. He (Crittenden) was not belligerent either in policy or feeling, but war was not the worst of evils; silent submission to wrongs or pulling about for awhile and then suffering it to pass was not the course for a great people, and was worse than war. He would not dispute with England about the abstract right of search, let her found her claim on what prerogative or supposed right she may, but the moment she makes an aggression on our National rights and honor, I will, said Mr. Crittenden, fight her upon the fact with war for the argument.

Mr Davis of Miss. made a reply to Mr. Crittenden, saying that economy must proceed from the Executive.

Mr. Bell of Tenn. obtained the floor for to-morrow, and at 6 P. M. the Senate adj'd.

HOUSE. Mr Grow of Pa. asked but did not obtain consent to offer a resolution that when Congress adjourn on the 7th of June, it be till the 4th of Nov.

Business relating to the District of Columbia was then considered. Several bills were passed, including those for regulating the municipal elections in Washington—organizing a paid fire department in Washington and Georgetown, and appropriating $37,000 for the purchase of steam engines and a fire and police telegraph.

The Ohio contested election was then taken up.

A resolut on offered by Mr Marshall of Ky., for the postponement of the question to the first Monday in December was rejected by 23 majority.

A resolution of Mr Gilmer of S C, a member of the Committee on Elections, declaring that Mr Campbell is entitled to the seat, was rejected by 26 majority.

A resolution of Mr Lamar of Miss., also of the Committee, that Mr Vallandingham is entitled to the seat, was adopted by 4 majority.

The resolution of Mr Phillips of Ill., declaring the seat vacant, as just amended by Mr Lamar's proposition, was agreed to by seven majority, and Mr. Vallandingham was sworn in.

The House passed the bill giving to a private company the privilege for 20 years of a passenger railroad in Pennsylvania Avenue, in the city of Washington.

The House, on motion of Mr J Glancy Jones of Penn., voted on the Senate's amendments to the Executive, Judicial and Legislative appropriation bill.

The fortification bill then came up.

Mr Glancy Jones said it proposed an appropriation of $350,000, to be expended at the discretion of the Secretary of War, for the preservation and keeping in repair the fortifications for next year.

Mr Quitman, of Miss., was unwilling that money should be appropriated without the specific items being given, for the whole sum might be expended on a single work.

Mr Jones had a private memorandum showing the amounts to be expended on the several fortifications.

Mr Whiteley of Del. offered a substitute in accordance with the estimates of the war dept, appropriating nearly $2,000,000, and argued the necessity of completing the fortifications, considering the condition of our foreign relations, so that if war came we may defend ourselves against the enemy.

Mr Dowdell of Ala. hoped war would never come, but if we wished to preserve peace we must be in a condition of defence. He trusted the administration had not only sent orders to the Gulf to protect our commerce, but for the arrest of every foreign captain who has boarded our vessels, that they might be brought into port and tried for piracy.

No definite action was taken on the bill.

The House then went into committee of the whole, and speeches were made on various subjects. Adjourned.

American Tract Society.

BOSTON, May 25.

The American Tract Society held its forenoon and afternoon session to-day, which was mainly occupied in warm, and exciting debate on the acceptance of the resolutions presented yesterday by Mr Hubbard. A large number of members engaged in the discussion, the speakers being limited to 10 minutes. The resolutions were finally adopted, with the exception of the principal one, regarding the N. Y. Society, which was referred to the Executive Committee of 7. The old Board of officers was re-elected, with one exception, Mr. Alvord succeeding Mr Bliss, as Secretary. The resolutions were adopted by about one hundred majority. The meeting then adjourned.

Various News.

St. Louis, May 22.

Santa Fe papers of May 1st are received. On the 17th April, a party of Mormons from the Moquis Valley attacked the camp of the Navajoe Indians, near Fort Tecum, butchered indiscriminately men, women and children. Lieut Howard, of Fort Thorn, pursued and captured the Mexicans, and held them prisoners at the Fort.

On the 7th of April a tremendous storm of rain, hail and snow occurred near Turkey Creek, flooding the prairie to the depth of one or two feet, in consequence of which the animals of the trains stampeded, involving heavy losses to the traders.

James M Hunt, whose death has been reported, was a native of Albany.

The Republican learns that Capt. Montgomery's band of robbers in Kansas, have in contemplation the robbery of the Indian agent Timony, who is about distributing annuities to the amount of $40,000 among the Sac and Fox Indians. The robbers are now concentrating on Orange River, about 6 miles from the Sac and Fox Agency. Mr. Timony has asked a military escort from Gen Harney, to conduct him from Kansas city to the Agency, and protect all parties during the distribution of the money.

The officers of the steamer Polar Star, report that a strong force surprised Montgomery's force near Fort Scott, and killed 11 of them; but this needs confirmation.

NEW YORK, May 25th.

Mr Vanderbilt has made arrangements to run a weekly line of steamships between this city and Southampton, Havre, and Bremen, to commence in June. The line will be composed of the Vanderbilt, Ariel, North Star, and Northern Lights, to which will be added the new and magnificent steamship Queen of the Ocean, now nearly completed.

The loan of $500,000, of the State of Ohio, to mature in 1860 and 1861, six per cent interest, has been awarded as follows: $200,000 to the Norwich Savings Society at 1 1-10 a 1¼ per cent premium; $250,000 to Thompson Bros. at 61-100 premium; and $50,000 to E R Boyle at ½ per cent premium.

NEW ORLEANS, May 25th.

The steamship Tennessee, from Vera Cruz, arrived here to-day with dates of the 21st inst. Admiral Zerrano of the Mexican navy came passenger in her.

We learn from the Tennessee's advices that the communication between the interior and Vera Cruz, had been opened again. The city had been blockaded for three days by the govt steamer Guerrero, but in consequence of her fuel giving out she was obliged to leave to obtain a supply.

The hopes of the Revolutionists were considerably dampened, and the confidence of the Constitutionalists proportionably raised, and they were anticipating an easy victory.

There is nothing said in the advices of the whereabouts of Juarez and his cabinet.

DANVILLE, May 25.

This afternoon a young man two miles from here, about 25 years old, killed himself by placing a shot gun at his breast and discharging its contents, which passed near his heart, causing death in 20 minutes. His name was Isaac Jordon. He has just returned from Chicago, and was unwell and discouraged.

PHILADELPHIA, May 25.

During the return of the Lafayette German Rifles, from a celebration at Lemon Hill last evening, a police officer was struck by a soldier with his sword. The police attempted to arrest the offender, but were resisted by the rest of the soldiers. The mob sided with the police and several shots were fired on both sides. Fraud Wendell and Charles Brewer, privates, were both wounded, it is supposed fatally.

HONEY MAKING.

☞ Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling, *Davis Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, where it has been received with so much favor and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Patent, and to sell rights to towns and individuals

This Bee Hive is so improved is admitted by persons acquainted with the honey making business to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrement, for the proper separation of the swarms and generally for the health and comfort of the workers

The boxes used in it is five to eleven pounds each, are the best adapted in their size for the market, being from three to six pounds each

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographic and Analytic Counterfeit Processes, Frauds or Alterations

HAVING purchased the Patent for the exclusive right to manufacture in the United States the Chemical Paper in America invented and patented in England by HENRY GRANT, a celebrated chemist and officer in the British army it is hardly necessary to say that the Paper is recommended by Mr Agent Assayer of the U S Mint, Mr Lyman of the New York Clearing House, and Meade Brothers, extensive and skilful photographers 233 Broadway N Y The latter say that no trial at cost can be made on a check or bank note printed on the Safety Paper Below is our list of prices

Bank Checks—35 cts per lb	
Bank Bills—$18 for 1000 sheets	
Bills of Exchange—$25 for 1000 sheets	
Promissory Notes—40 cts per lb	
Sight and Time Drafts—$25 for 1000 sheets	
Insurance Policies—40 cts per lb	
Railroad Stocks and Bonds—40 cts per lb	
Bank and State Stocks—40 cts per lb	
Bonds and Mortgages—40 cts per lb	
Wills and Deeds—40 cts per lb	

For writing Inks and other fine articles it is excellent as it prevents moths 40 cts a lb

For Indentures and Agreements 40 cts a lb

All State and County Records should always be printed on it as an ink is used in this paper as the chemicals inserted in the pulp not only prevents erasure or razor but makes it last long as time

For Southern climates it is excellent and much superior to any other as the moisture of the climate does not destroy it—the properties inserted in the pulp being a preventive In all the Southern States Cuba the West Indies, and all the Central American States no public records can be kept over 20 years written on the ordinary paper, while the ink and other chemicals inserted in this paper makes it indestructible by the ravages of time It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use!

The Company have now in operation Mills in Morris County N J of about 300 horse power, and are able to fill all orders for Paper at the shortest notice

All orders for the Paper must be addressed to A NICHOLLS President of the Company, No 70 Wall street New York

American & Foreign Patents.

R. H. EDDY,
Solicitor of Patents,

(Late Agent of U S Patent Office, Washington under Act of 1837,)

76 State Street, opposite Kilby st,
BOSTON.

AFTER an extensive practice of upwards of twenty years continues to secure Patents in the United States, also in Great Britain France, and other foreign countries Caveats, Specifications Assignments and all Papers or Drawings for Patents executed on liberal terms and with despatch Research made into American or Foreign works to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same—Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington

This Agency is not only the largest in New England but through it Inventors have advantages for securing Patents or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to any which can be offered them elsewhere The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY he would add that he has abundant reason to believe and can prove that at no other office of the kind are the charges for professional services so moderate The immense practice of the subscriber, during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents These besides his extensive library of legal and mechanical works and full accounts of Patents granted in the United States and Europe render him able beyond question, to offer superior facilities for obtaining patents

All necessity of a journey to Washington, to procure a patent and the usual great delay thereby are here saved inventors

TESTIMONIALS

During the time I occupied the office of Commissioner of Patents R H Eddy Esq, of Boston, filled his place at the Patent Office as one of the first practising patent solicitors in the country. These were every if any, persons acting in that capacity, there were none in whom I could confide with more skill fidelity and success I very cheerfully bear testimony to the fact that they came of only by a person more competent and trustworthy and I recommend all of putting their applications into his hands to secure for them speedy and favorable consideration at the Patent Office

EDMUND BURKE
Late Commissioner of Patents

August 17 1850—During the time I have held the office of Commissioner of Patents R H Eddy Esq of Boston has been extensively engaged in the transaction of business with the Office as a solicitor He is thoroughly acquainted with the law, and the rules of practice of the office I regard him as one of the most capable and successful practitioners with whom I have had official intercourse CHARLES MASON,

LINCOLN'S WATER PROOF BLACKING, AND LEATHER PRESERVATIVE.

keep your Feet dry and you will seldom need a Physician

IS it not a truth that when the feet are often wet It is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried it soon becomes hard, stiff, and cracks, but when this water proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water

After being engaged for 25 years in the manufacture of Leather in all its branches and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water proof but at the same time extremely injurious to the leather At last by a chemical process I discovered a preparation which, perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time I can therefore in all conscience recommend it to the public as the best article in the market

Dr. McLANE'S CELEBRATED VERMIFUGE AND LIVER PILLS.

Two of the Best Preparations of the Age.

They are not recommended as Universal Cure-alls, but simply for what their name purports.

The VERMIFUGE, for expelling Worms from the human system, has also been administered with the most satisfactory results to various animals subject to Worms.

The LIVER PILLS, for the cure of LIVER COMPLAINT, all BILIOUS DERANGEMENTS, SICK HEADACHE, &c.

Purchasers will please be particular to ask for Dr. C. McLane's Celebrated VERMIFUGE and LIVER PILLS, prepared by

Fleming Bro

SOLE PROPRIETORS, Pittsburgh, Pa., and take no other, as there are various other preparations now before the public, purporting to be Vermifuge and Liver Pills. All others, in comparison with Dr. McLANE'S, are worthless.

The GENUINE McLane's Vermifuge and Liver Pills can now be had at all respectable Drug Stores.

ADDRESS

To the People of the United States.

The Human System is infested with three distinct kinds of

WORMS,

Namely—The Tape Worm, the Round or Stomach Worm, and the Seat, or Pin Worm,

each having their peculiar action upon the system in accordance with the abundance that may be lodged either in the stomach intestines, or rectum, or the places they may inhabit

WHAT SHALL I TAKE?

Why, purchase a 25 cent Bottle of

HOBENSACK'S

WORM SYRUP,

For, by using it according to the directions, you can cure yourself and children of

WORMS!

It is certain to cure you as that you are conscious of your own existence and if you are suffering after reading this pamphlet you must attack your leading a miserable existence to your own carelessness, for if any of the symptoms laid down in the pamphlet are visible, or felt you need no longer doubt, but become satisfied that Worms are the cause of all your suffering To you then, I confidently recommend the use of my

WORM SYRUP.

From the knowledge of the powerful vegetable ingredients of which it is composed together with the numerous unsolicited Testimonials I am daily receiving from families and others who have been restored to health by a timely use of the

Vegetable Worm Syrup.

"Mother, I cannot take it!"

How often is this said by the many children who are drugged with Castor Oil Turpentine and such like nauseous doses by their parents for WORMS, simply because they are led by the ignorant to believe they are CURE ALLS

But that difficulty is now obviated by the use of my

WORM SYRUP,

which is compounded in such a manner that I have never known a single case in which they have

REFUSED TO TAKE IT!

as it is made in the form of a Syrup and palatable to the taste of the most fastidious, and children, rather than refuse to take it, have actually been known to cry for it so pleasant will find no difficulty in getting any child to take it—and yet, while it is so pleasant to the taste, it is the

Most Certain and Effectual Medicine EVER DISCOVERED!

and can be administered to the most *tender*, in *fact* with decided benefit.

Where BOWEL COMPLAINTS and DIARRHŒA have made them weak and debilitated,

ONE SINGLE DOSE

destroys the worm from the system, many times of the poor suffering children.
